

Concept & Conditions

"I love each language in its entirety, and I pass it on to my students in the same manner. I encourage them to find their own unique path towards the fascinating living network that every language is. And most importantly: to HAVE A LOT OF FUN in the process."

WHY CHOOSE ME

I'm a freelancer providing individual classes of English, French and Czech for teenagers and adults of all language levels.

I create a unique communicative relationship with each of my students based on natural behavior, prompt reactions and empathy.

When teaching two or three students at once, I make use of benefits resulting from their interaction: mutual feedback, competitiveness and support.

I design my classes on the basis of my original methodology. The teaching content and structure are tailored to fit the student's goals, needs and passions with the goal being maximum progress in naturally mastering the chosen language.

I offer general and specialized classes, tutoring, graduation preparation, preparation for language and state exams and job interviews. I also assist with content editing, proofreading, writing essays, and presentation preparation.

I have a Master's degree in pedagogy and I passed both English and French state exams.

I'm married to an American, so every day I get to explore the fascinating coexistence of our two cultures along with all our similarities and differences and use those in my lessons.

I draw on my six-year teaching background as well as rich hands-on experience from the daily life in the US, France, Great Britain and travels to other countries.

CONCEPT AND CONDITIONS

The teaching is carried out either in person (for the Prague-based students) or online via Skype.

For the face-to-face teaching, my transport time is added to the product price (300 CZK/hour).

The number of students per lesson can be one, two or three.

The products are sold in the form of 5-lesson bundles. The teaching frequency is once or several times a week in mutually agreed fixed time slots Monday to Friday from 8 am to 9 pm. The initial consultation including an introductory lesson ranks as a standard lesson.

It is possible to purchase 1 to 8 bundles at a time while choosing any product combination. 3, 5 and 8 bundles are offered at a discount (see the price list).

Each bundle can be purchased in a 60 or a 90-minute variant.

Within each bundle, the student has one possibility to shift a lesson. The lesson is moved to the student's standard time slot following the week when the last purchased lesson took place. If the student doesn't use this extra time slot, the lesson isn't moved further. The student is entitled to shift the lesson if they announce it at least 24 hours in advance.

If the student purchases multiple bundles, they can use this option to shift two or more consecutive lessons, depending on the number of the purchased bundles.

No-show lessons without prior announcement by the student, lessons with a late start due to a student's delay and lessons with late shift announcement (less than 24 hours) are paid by default. Parents are responsible for the attendance of students under 18 years of age: if the student's parents prefer to discuss system matters with me, it is necessary to make this arrangement in advance.

A stable internet connection is needed for the Skype lessons. In a case of technical failure on either side, the lesson is moved to the student's standard weekly time slot following the week when the last purchased lesson took place. If the student doesn't use this extra time slot, the lesson isn't moved further.

PAYMENT

The payment for the product (i.e. a specific number of bundles) is made via bank transfer to the account number mentioned below. The PDF invoice is sent to the student via e-mail. The invoice due date is listed on the invoice issued at the time of billing. The standard invoice payment is due 7 days from the time the billing is issued.

Late payments from 8 to 14 days after the invoice issue date incur a late payment penalty of 250 CZK. Payments overdue by 15 days or more result in the student forfeiting their reserved time slot, and in that case, a new booking needs to be made.

Bank account number for payments: 1823877019/3030 (Airbank)

Variable symbol: variable symbol included on the invoice

Message for the recipient: student's last name and a code in the following form - *the number of purchased lessons_the lesson length*, e.g. *25_60*
